Problem

Solution

No sound at all

Make sure you have charged the headset.

To set the headset as the default audio device, refer to steps 5, 6 and 9.

Restart the media player.

Connect the transmitter to another USB port.

My friend on man/kype does not hear what I'm saying

Check if the headset is set as the default device.Refer to step 5, 6 and 9.

Increase the microphone volume and increase the volume from the msn/skype software.

Check if the headset is set as default device on microphone software.

Bad sound quality

Normal wireless range is 10m but walls or big objects may reduce the range.

Move other working wireless devices away from the transmitter and headset.

Volume control under wired mode

Under wired mode the volume control on the headset can not work.

You can use the volume control of your PC or media playing software

■ If your problem is not solved, please contact the helpdesk at www.rapoo.com.
